

A Day In The Sonoran Desert

The sun is beginning to rise
pink and orange fills the skies
a bird starts to sing
branches sway and swing
rabbits hop over the rocks
when they spy a desert fox
a cactus stands tall
it does not fall
the sun beats down on the ground
ants go in and out of a mound
the sun is starting to set
but the fun is not over yet
as a coyote begins to howl
yip yap yowl
a day in the Sonoran Desert!
